Suitable for	Toyota - Toyota Land Cruiser 80 Series

Add-on: drop down table Explore Overlander Light

The Explore Overlander Light from Explore Glazing is a superior option for owners of a Toyota Land Cruiser Series 80, delivering optimal convenience for overlanders. This addition requires no modifications to the vehicle, possesses proven durability, and provides versatile solutions for transporting equipment, making it an invaluable addition for adventurers.

For those wishing to upgrade their Explore Glazing gullwing window on the Toyota Land Cruiser Series 80, the Overlander Light is an optional enhancement. It is also compatible with the Explore Glazing sliding window.

It synergistically combines a collapsible table and window protection, allowing you to securely attach your expedition equipment to your vehicle.

Specially designed for Explore Glazing windows, the Overlander Light seamlessly integrates hinges and locks into the aluminum window profile. This innovation guarantees no damage to the vehicle's body from mounting holes and prevents the onset of rust in concealed areas.

Product features:

- Manufactured from a 5 mm aluminum plate and finished with a high-quality industrial black powder coating (RAL 9005) like other Explore Glazing products.
- Detachable and adjustable straps with stainless steel hooks offer flexible opening angles or full folding for unrestricted access to your vehicle.
- With a minimal mounting height of 16 mm on the window, the Overlander Light provides additional equipment mounting options without obstructing rear visibility.
- Equipped with numerous attachment points for lashing straps and airline rails (L-track).
- Features a hole pattern consistent with the design of Explore Glazing window guards, ensuring a uniform and harmonious appearance while allowing abundant daylight into your vehicle.

The Explore Overlander Light can be additionally customized with:

- **Airline rails**, a distinctive extrusion profile, coated with the same industrial powder as our other products (RAL 9005)
 - Set of 2 pieces Material specification EN AW-6063 T66

- Dimensions 28 x 11 mm (W/H)
- Weight 500 grams/meter
- Apertures with a diameter of 20 mm, and intermediate apertures of 25 mm for fastening to the Overlander Light (stainless steel M5x8 included).
- **Explore Overlander Pack**, includes:
 - 2 x 25 mm lashing strap length 2.5 meters with stainless steel clamping buckle
 - 4 x single stud airline fitting, black plastic housing, 500 daN
 - 4 x butterfly fitting M8x25 galvanized steel
 - 4 x butterfly fitting M8x60 galvanized steel
 - 4 x lockable M8 safety star handle black plastic
 - 2 x collapsible key
 - rubber cover for airline rails

Installation
