

Add-on: drop down table Explore Overlander Light

The Explore Overlander Light by Explore Glazing, designed for the INEOS Grenadier, offers optimal convenience for camping enthusiasts. It is durable, requires no modifications to your vehicle, and provides versatile equipment transportation solutions, making it a valuable addition for INEOS Grenadier 4x4 owners.

Specifications

Article number	OVL-INEOS
Price	Price starts from €225,-
Dimensions	Width: 732mm Height: 295mm
Suitable for	INEOS - INEOS Grenadier

Add-on: drop down table Explore Overlander Light

The Explore Overlander Light is a prime choice for INEOS Grenadier owners, providing optimal convenience for camping enthusiasts. This enhancement requires no vehicle modifications, boasts enduring robustness, and offers versatile solutions for transporting equipment, making it an invaluable addition for adventurers.

For those seeking to upgrade their Explore Glazing gullwing window on the INEOS Grenadier, the Explore Overlander Light is an elective enhancement. It is also compatible with the Explore Glazing sliding window.

It synergistically amalgamates a collapsible table and window shield, allowing the secure attachment of expeditionary equipment to your vehicle.

Explicitly designed for Explore Glazing windows, the Overlander Light seamlessly integrates hinges and locks into the window frame. This innovation guarantees no damage to the vehicle's body from mounting holes, preventing the onset of rust in concealed areas.

Product Features:

- Fabricated from a 5 mm aluminum plate and adorned with the equivalent high-quality industrial black powder coating (RAL 9005) as other Explore Glazing products.
- Detachable and adjustable straps with stainless steel hooks offer flexible opening angles or full folding for maximal access to your vehicle.
- With a minimal mounting height of 16 mm on the window, the Overlander Light avails additional equipment mounting options without compromising rear visibility.
- Equipped with multiple attachment points for lashing straps and airline rails (L-track).
- Features a hole pattern consistent with the design of Explore Glazing window guards, ensuring a uniform and cohesive appearance while allowing ample daylight into your vehicle.

The Explore Overlander can be additionally customized with:

- Airline rails, a unique extrusion profile, provided with the same industrial powder coating as our other products (RAL 9005)
- Set of 2 pieces

- Material specification EN AW-6063 T66
- Dimensions 28 x 11 mm (W/H)
- Weight 500 grams/meter
- Holes with a diameter of 20 mm, and intermediate holes of 25 mm for attaching to the Explore Overlander (stainless steel M5x8 included)

Explore Overlander Pack includes:

- 2 x 25 mm lashing strap, length 2.5 meters, with stainless steel clamping buckle
- 4 x single stud airline fitting with black plastic housing, 500 daN
- 4 x butterfly fitting M8x25, and 4 x butterfly fitting M8x60, both galvanized steel
- 4 x lockable M8 safety star handle in black plastic
- 2 x collapsible key
- Rubber cover for airline rails

Installation

For your INEOS Grenadier, we present a do-it-yourself package, composed of premium components, specifically designed to enhance the robustness and functionality of your vehicle. This package is an excellent addition, designed to complement the unique specifications of the INEOS Grenadier.

Package Contents:

- **Aluminium Plate:** This ensures strength and stability.
- **Hinges:** These are made from zinc die-casting and are black coated, supplemented with stainless steel parts for extra durability.
- **Indexing Plungers (Locks):** Also made from zinc die-casting, black coated, equipped with stainless steel parts and closing brackets to ensure secure attachment.
- **Mounting Straps:** These are fitted with stainless steel hooks for reliable mounting.

Required Mounting Set:

To assemble the package, you will need a specific mounting set, consisting of a 4.2 drill, 5.0 drill, M5 tap, and a pin-in torx bit. This mounting set is offered as standard when you request a quote, ensuring you have all the necessary tools to facilitate smooth and efficient installation.

The unique combination of premium materials and high-quality components in this DIY package ensures that your INEOS Grenadier is equipped with reliable and durable parts, designed to meet the challenges of every adventure.

It is important that the Explore Glazing products are assembled correctly and safely. Careless assembly can lead to accidents and serious damage and / or injury to you or others. If you have no technical experience or are not familiar with the general assembly instructions, we recommend that you have our products assembled by a professional company.
