Gullwing window glass version

To lend a sophisticated flair to your INEOS Grenadier and ensure smooth access to its cargo space, opt for the glass gullwing window by Explore Glazing. This piece transforms your INEOS Grenadier into a vision of both aesthetic appeal and elevated functionality. It's an ideal addition for those seeking a harmonious blend of style and practicality in their travels and adventures.

Product Features

- **Dimensions:** Tailored to fit the original side windows of the INEOS Grenadier.
- **Construction:**
 - 5mm tempered safety glass plate.
 - Dual robust gas springs for seamless opening.
 - Pair of lockable compression latches ensuring security and a flawless seal.
 - It features comprehensive dust and waterproof protection.
- **Finish:** Premium aluminium window frame finished with industrial black powder coating (RAL 9005), providing protection against weather-induced discoloration.
- **Glass Options:** Available in dark grey with 20% light transmission (80% tinted). All glass is tempered safety glass, ECE 43R and DOT certified.
- **Availability:** Exclusively designed for either the left or right side; not interchangeable.
- **Window Accessories:** Augment your gullwing window with a window guard or an Explore Overlander Light.

The gullwing window arrives fully assembled, prepared for immediate installation. Upgrade your INEOS Grenadier experience with this remarkable addition!

Installation

General

- The windows' dimensions are precisely aligned with the original windows of the INEOS Grenadier.
- No alterations to the bodywork are required, permitting the reinstallation of the original window if needed.
- The assembly is intuitive and swift.
- Before beginning installation, carefully review the instructions, as any claims due to improper installation will not be accepted afterward.

Windows require mounting with polymer adhesive. A professional-grade polymer adhesive is offered as standard.

It is important that the Explore Glazing products are assembled correctly and safely. Careless assembly can lead to accidents and serious damage and / or injury to you or others. If you have no technical experience or are not familiar with the general assembly instructions, we recommend that you have our products assembled by a professional company.
