Add-on: window guard for a sliding window

Enhance the protection of your INEOS Grenadier with the window guard from Explore Glazing. This guard has been exclusively developed for the sliding windows by Explore Glazing, ensuring a seamless integration with the aluminum window profile. It is an indispensable accessory to ward off break-ins, protect the glass, and maintain the safety of pets, allowing you to enjoy the tranquil and refreshing ambiance of an open-air ride.

- **Break-in Protection:** The durable design acts as a powerful deterrent for potential intruders.
- **Glass Protection:** Protects the window against impacts and scratches.
- **Pet Safety:** Prevents pets from sticking their heads out, reducing the risk of injury during the journey.
- **Ventilation Retention:** Allows you to enjoy fresh air.

Key Features:

- **Custom-made Design:** Carefully adapted to the contours of the sliding window.
- **Secure Attachment:** Attaches directly to the window profile, avoiding any damage or rust to the bodywork and preserving the possibility to easily return to the original state.
- **Break-in Protection:** By using the included M5*12 torx security screws, removal is prevented without the proper tool.
- **Material:** Made of a 3 mm aluminum plate, with an industrial black powder coating (Color RAL9005) like the other products from Explore Glazing.

Note: The window guard is delivered unassembled.

Installation

When attaching the window guard to the sliding windows of your INEOS Grenadier, use the included M5*12 torx security screws to ensure that it cannot be removed from the outside without the proper tool.

A mounting kit is essential for installation. This kit is not included as standard, but is offered with your quote request and includes:

- Drill 4.2
- Drill 5.0
- Tap M5
- Torx bit (tamper-proof)

Enhance the safety of your INEOS Grenadier with our window guard designed for the sliding windows of Explore Glazing.

It is important that the Explore Glazing products are assembled correctly and safely. Careless assembly can lead to accidents and serious damage and / or injury to you or others. If you have no technical experience or are not familiar with the general assembly instructions, we recommend that you have our products assembled by a professional company.
