Aftermarket glass set second row seating

Looking for a precise and high-quality aftermarket glass solution for your Land Rover Defender 110 SW? Explore Glazing has got you covered.

Introducing our aftermarket glass for the Defender 110 SW's second row seating. Designed with precision, our set includes 4 pieces suitable for both the left and right sides of the vehicle.

- **Quality Assured:** Our 4 mm thick glass comes in a sleek dark grey tint, offering a light transmission of 20% (80% tinted). More than just aesthetics, the glass is backed with E43R and DOT certification marks, ensuring you're getting a product that meets stringent industry standards.
- **Flexibility in Installation:** Our design philosophy puts ease of use at the forefront. We offer a universal fit, meaning there's no need to distinguish between left and right; simply mirror the glass when installing on the right side.
- **Attention to Detail:** While our glass set does not come with mounting hardware, it's designed for seamless integration with your original windows. For those in need, new clip glass holders are available online with the Land Rover part number STC4787 (updated to AWR7092).

For those seeking consistency in their vehicle's appearance, our aftermarket glass set for the Land Rover Defender 110 SW is offered as a service to match the exact glass tint found in our gullwing and sliding windows. This provides a harmonized look across all window types in your Defender. Choose Explore Glazing for a seamless blend of quality and aesthetics.

Installation

For replacing your Defender 110 SW glass, consult the Land Rover Defender workshop manual. If existing window clip glass holders are unusable, order using Land Rover part number STC4787 (updated to AWR7092) from various suppliers.
