Accessory: Land Rover Defender - gullwing storage box for Explore Glazing's gullwing window

The Explore Glazing gullwing storage box is designed to be used in conjunction with the Explore Glazing gullwing window, offering a convenient storage compartment accessible from the side of your Land Rover Defender.

This gullwing storage box is securely mounted onto the aluminum window profile of the Explore Glazing gullwing window, eliminating the need for additional holes in your vehicle's bodywork.

Equipped with multiple attachment points in the form of L-track cargo rails on the rear and sides, the storage box features a Molle-system pattern. The pattern includes Ø 4.2 mm holes for attaching accessories like Quick Fist clamps. The Molle-System can be utilized both inside and outside the box, providing versatility for organizing your gear.

The Molle-system is a versatile attachment system that utilizes interlocking straps and webbing to securely fasten accessories and equipment to surfaces. It allows for easy customization and organization of gear, providing flexibility in arranging and accessing items within the storage box.

The Explore Glazing gullwing storage box is suitable for both the Land Rover Defender 110 and Land Rover Defender 90 models. In the case of the Land Rover Defender 90, the box is designed to allow the seat to be moved as far back as possible without any interference from the box.

Product features

- weight: < 3.5 kg
- material: 2 mm black powder coated aluminum (RAL9005)
- assembly: fits completely on the Explore Glazing gullwing window and remains within the inner lining
- depth above 70 mm and below 112 mm, so that the view to the rear is not obstructed
- model: one model R70, but also fits the older windows with 4 x a radius of 50 mm.

Installation

General

- The dimensions of the windows fully correspond to the original windows.
- No adjustments to the bodywork are necessary, so that the original window can be replaced if necessary.
- Easy and quick to assemble.

The gullwing window is mounted with M4*20 stainless steel mounting screws.

For an additional charge, the stainless steel mounting screws can be supplied black powder coated. This option will be offered to you as standard.

If the Explore Glazing gullwing window has not yet been installed in your car, we advise you to pre-assemble the Expedition box on the new window first.
