Land Rover Defender - Quarter window glass

Explore Glazing offers a unique solution for Land Rover Defender quarter windows. Unlike traditional rubber-mounted quarter windows that can be susceptible to break-ins, Explore Glazing has developed a fixed quarter window option.

Our fixed quarter windows are crafted using the same extrusion profiles as the gullwing, sliding, and half-drop windows for Land Rover Defender. They are carefully curved and equipped with 4 mm tempered safety glass, certified E43R and DOT. This ensures durability and enhanced security for your vehicle.

Available in two stylish options, dark grey LT20% (80% tinted) and the original Land Rover color parsol green LT57% (43% tinted), our quarter windows seamlessly blend with the aesthetic of your Land Rover Defender.

By choosing Explore Glazing's fixed quarter windows, you can enjoy the benefits of increased security and peace of mind, without compromising on the distinctive style of your Land Rover Defender. Upgrade your vehicle with our reliable and stylish quarter window solution today.

The quarter windows can be expanded with a window guard on the inside (internal) or on the outside (external). The quarter window is also available in a full aluminum version, as well as in a gullwing version. View the products in the product overview of the Land Rover Defender.

Installation

General

- The dimensions of the window fully correspond to the original window.
- No adjustments to the bodywork are necessary, which means that the original window can easily be replaced.
- Easy and quick to assemble.

The quarter window is mounted with M4*16 stainless steel mounting screws and sealed with adhesive.

For an additional charge, the stainless steel mounting screws can be supplied black powder coated. This option will be offered to you as standard.

A mounting set will be offered with your request and consists of:

- drill 4.2 mm
- cartridge of Dowsil 791 Silicone Weatherproofing
- brush
- rubber to remove the excess sealant
