Price	Price starts from €380,-
Dimensions	Width: 755mm Height: 456mm
Suitable for	Land Rover - Land Rover Defender 90 - 110 Land Rover - Land Rover Defender Hard Top 110 3-door

Tail door halfdrop window post 2002

The half-drop window perfectly matches the dimensions of the original tail door glass, ensuring seamless integration and effortless restoration of the tail door's original design if desired.

Installation of the window is hassle-free as it fits directly into the original rubber, eliminating the need for any modifications to the tail door.

Please note that the half-drop window does not include heating functionality and does not come with a third brake light. To replace the third brake light, you may consider installing an LED brake light above the window, which is not included with the window.

Crafted from durable aluminum, the window frame is meticulously coated with a high-quality black industrial powder coating (RAL 9005), offering exceptional resistance to weather-induced discoloration.

Designed to open vertically from top to bottom, the half-drop window provides optimal ventilation across the entire width, allowing for a refreshing flow of air within your vehicle.

Equipped with two user-friendly closures, the window offers versatile positions for opening, giving you full control over the airflow and ventilation options.

Rest assured that the window is built with your safety in mind, featuring 4 mm tempered safety glass that is ECE 43R and DOT certified. You can choose from two available colors:

- Dark grey LT20%
- Parsol green LT57%, meticulously selected to match the original Land Rover color.

Experience the perfect combination of functionality, style, and safety with our exceptional half-drop window for your Land Rover Defender. Upgrade your vehicle today and enjoy the enhanced ventilation and aesthetic appeal it brings.

Installation

The window dimensions perfectly match those of the original window, ensuring a seamless replacement process without requiring any modifications to the vehicle's bodywork.

The Land Rover Defender's tail door comes in two different models, each with its own mounting method:

- For models up to the year 2002, the window is installed using glass retainers.
- For models from the year 2002 onwards, the window is installed using a sealing rubber.

The assembly process is straightforward and efficient, allowing for easy installation without any complications.

Rest assured that the window is securely mounted within the original sealing rubber, providing a reliable and snug fit.

For detailed instructions on how to remove and install the window, you can download the workshop manual's removal and installation guide located under the 'prices and guides' section.

Upgrade your Land Rover Defender with confidence, knowing that the window replacement process is hassle-free and supported by comprehensive instructions. Enjoy the convenience and functionality of your new window with ease.
