Accessory: Land Rover Defender - interior window guard for Explore Glazing quarter window

The window guard is an optional feature for the Explore Glazing quarter window, exclusively designed with our aluminum profiles. It offers:

- A distinctive design that perfectly matches the window profile.
- Secure attachment without mounting holes, keeping the vehicle's bodywork intact and easy to restore.

Made from 2 mm aluminum and coated with the same high-quality industrial black powder coating (RAL9005) as all Explore Glazing windows, the window guard provides a uniform finish and excellent resistance to discoloration.

Choose the Explore Glazing window guard to enhance the functionality and aesthetics of your Land Rover Defender quarter window while maintaining the original appearance.

Note: This product fits exclusively on the Explore Glazing quarter window and not on the original glass.

Installation

This window guard for the quarter windows of your Land Rover Defender - unlike other window guards - is attached to the inside of the window with the supplied stainless steel screws M4*8.

You need a mounting set, which consists of:

- drill 3.3
- tap M4

The mounting set is offered as standard with your quotation request.
