Gullwing window full aluminium version

There are several benefits to using a gullwing window on your Land Rover Discovery I 3 or 5-door:

1. **Easy access to the cargo space:** A gullwing window provides easy access to the cargo area of your vehicle. The window opens upwards, allowing you to effortlessly reach your belongings without being hindered by traditional tailgates or doors. This makes loading and unloading goods much easier and simplifies the organization of the cargo space. It gives you the ability to quickly and efficiently access the items you need, making your adventures even smoother.
2. **Improved ventilation:** Opening the gullwing window allows for better ventilation in the cargo area. This is especially useful during hot days or when camping in your vehicle. It provides a fresh airflow and prevents the cargo space from becoming stuffy.
3. **Aesthetic appeal:** A gullwing window adds a unique and striking aesthetic to your vehicle. It gives your vehicle a rugged and adventurous look, setting it apart from other vehicles.
4. **Versatility:** With a gullwing window, you can use the cargo area of your vehicle in various ways. For example, it can serve as a practical workspace, a comfortable sleeping area during camping, or simply as a convenient spot to store your belongings.

In summary, a gullwing window offers convenience, ventilation, aesthetic appeal, and versatility for your vehicle. It is a valuable addition for adventurers and travelers who want to optimize their vehicle for different purposes.

The gullwing window for your Land Rover Discovery I has the same dimensions as the original side windows and can be installed quickly and easily.

An aluminium plate, equipped with two robust gas springs and two lockable compression latches, ensures a perfect seal.

The entire gullwing - the frame and the hinged part - is finished with a black, high-quality industrial powder coating (RAL 9005) and is therefore insensitive to discoloration due to weather influences.

We deliver the expedition window completely pre-assembled and ready to install!

Available for the left and right side. Windows are not interchangeable.

The gullwing window can be expanded with an Explore Overlander Light.

Installation

General

- The dimensions of the windows fully correspond to the original windows of your Land Rover Discovery I 3 or 5-door.
- No adjustments to the bodywork are necessary, so that the original window can be replaced if necessary.
- Easy and quick to assemble.

The Explore Glazing windows are mounted in the original window rubber.

It is important that the Explore Glazing products are assembled correctly and safely. Careless assembly can lead to accidents and serious damage and / or injury to you or others. If you have no technical experience or are not familiar with the general assembly instructions, we recommend that you have our products assembled by a professional company.
