

Gullwing window with an integrated sliding window - front side

Experience the ideal fusion of style and functionality tailored specifically for the Toyota Troop Carrier with our inventive gullwing window design. This distinctive feature marries the classic look of the Troopy with practicality. Although the gullwing window stays shut while driving, the smoothly integrated sliding window within its foldable section offers a refreshing airflow during your journey.

Gullwing window with an integrated sliding window - front side

Enhance your Toyota Troop Carrier with our specially designed gullwing window, a perfect fit for the front side window. This innovative design merges the distinctiveness of a gullwing window with the practicality of a sliding window.

This design maintains the elegant, sleek appearance of the gullwing window while the vehicle is in motion, as it remains securely closed. The integrated sliding window feature, however, introduces a new level of convenience and comfort, allowing for controlled ventilation and a refreshing breeze during your drive.

Our focus is on combining aesthetic appeal with functional benefits. The gullwing window, designed for the Toyota Troop Carrier's front side, offers a practical and stylish solution, enhancing your vehicle's overall experience without compromising on safety or visual appeal.

Product features:

- The window is crafted with durability and security in mind, featuring a robust sealing system with an aluminum plate, gas springs, and lockable compression latches. It is finished with a high-quality black powder coating to withstand various weather conditions.
- Installation is straightforward, with the window delivered fully pre-assembled.
- The sliding window is made of 4 mm tempered safety glass, ensuring safety and privacy with a light transmission of 20% (80% tint).

Enhance your gullwing window with optional add-ons like the Explore Overlander Light drop-down table or a window guard for the sliding window.

Installation

Optimize the installation of your Explore Glazing gullwing window with these essential guidelines, ensuring a perfect fit for your Toyota Troop Carrier:

- **Precise Dimensions:** Our gullwing window matches the original window size, guaranteeing a seamless replacement.
- **Bodywork Flange:** The vehicle's body flange may be slightly curved. Flatten this flange to ensure the new window fits perfectly.
- **Welding Variations:** Due to spot welding, the inner and outer bodywork might have slight differences in window hole sizes. Center the window precisely for optimal installation.
- **Easy Assembly:** The window is designed for quick and straightforward installation.
- **Mounting Materials:** It is mounted using durable EPDM foam rubber, M4*20 stainless steel screws, and a reliable adhesive seal.

For an additional fee, you can opt for black powder-coated stainless steel mounting screws, enhancing the window's aesthetic appeal.

Comprehensive Mounting Set: Includes a 4.2 mm drill, a cartridge of professional caulking compound, a brush, and rubber for removing excess sealant. While the mounting set is not included as standard, we offer it as a standard option for your convenience.

Safe and Correct Assembly: Ensure that Explore Glazing products are installed safely and correctly. Improper installation can lead to accidents and potential damage or injury. If you lack technical experience or are unfamiliar with the installation process, we recommend having the products installed by a professional.

Installation Resources: Visit our YouTube channel for detailed installation videos, providing step-by-step guidance for a flawless setup.

It is important that the Explore Glazing products are assembled correctly and safely. Careless assembly can lead to accidents and serious damage and / or injury to you or others. If you have no technical experience or are not familiar with the general assembly instructions, we recommend that you have our products assembled by a professional company.
