Suitable for	Volkswagen - Volkswagen T3 Bus

Sliding window - front side left hand side

The Volkswagen T3 underwent a modification regarding the sliding doors and side windows. Starting from the 1985 model year, the T3's sliding doors were modified, replacing the old model with larger side windows with a new model featuring smaller side windows. This modification was implemented as part of the overall facelift of the T3 series.

Please note that this information is specifically related to the right-side sliding windows. The left-side windows have never been altered and retain their original size.

Our sliding windows feature a specially engineered sliding system, preventing dirt buildup in the slide channel. With over 20 years of expertise in the coachbuilding industry, we guarantee a long-lasting, low-maintenance solution for your vehicle.

Equipped with a user-friendly locking mechanism, the Explore Glazing sliding window offers effortless operation and adjustable positions. The glass edges are polished for optimal performance and safety.

Rest assured that our sliding windows meet stringent safety standards, featuring 4 mm toughened safety glass certified by ECE R-43 and DOT, available in privacy grey with a light transmission of 20% (tinted 80%).

The sliding windows can be enhanced with a window guard.

Please note: this sliding window for the front left side window is not compatible with the sliding door on the right side, making this variant exclusively available for the left side.

Installation

General

- The dimensions of the windows fully correspond to the original windows of your Volkswagen T3 Bus (Volkswagen T3 T25 Vanagon).
- No adjustments to the bodywork are necessary, so that the original window can be replaced if necessary.
- Easy and quick to assemble.

The Explore Glazing windows are mounted in the original window rubber.

It is important that the Explore Glazing products are assembled correctly and safely. Careless assembly can lead to accidents and serious damage and / or injury to you or others. If you have no technical experience or are not familiar with the general assembly instructions, we recommend that you have our products assembled by a professional company.
