Sliding window - right-side sliding door pre MY 1985

Important information

The Volkswagen T3 underwent a modification regarding the sliding doors and side windows. Starting from the 1985 model year, the T3's sliding doors were modified, replacing the old model with larger side windows with a new model featuring smaller side windows. This means that T3 models produced before 1985 have the larger side windows, while models produced from 1985 onwards have the smaller side windows. This modification was implemented as part of the overall facelift of the T3 series.

It is therefore crucial to select the correct window for your sliding door.

Our sliding windows feature a specially engineered sliding system, preventing dirt buildup in the slide channel. With over 20 years of expertise in the coachbuilding industry, we guarantee a long-lasting, low-maintenance solution for your vehicle.

Equipped with a user-friendly locking mechanism, the Explore Glazing sliding window offers effortless operation and adjustable positions. The glass edges are polished for optimal performance and safety.

Rest assured that our sliding windows meet stringent safety standards, featuring 4 mm toughened safety glass certified by ECE R-43 and DOT, available in privacy grey with a light transmission of 20% (tinted 80%).

This sliding window is available for the right-side sliding door Volkswagen T3, model year 1979 - 1985. To ensure accurate ordering, please note that a separate product is available for the front left-side window. Kindly select the appropriate product to avoid any ordering errors.

The sliding windows can be enhanced with a window guard.

Installation

General

- The Volkswagen T3 underwent a modification regarding the sliding doors and side windows. Starting from the 1985 model year, the T3's sliding doors were modified, replacing the old model with larger side windows with a new model featuring smaller side windows. This means that T3 models produced before 1985 have the larger side windows, while models produced from 1985 onwards have the smaller side windows. This modification was implemented as part of the overall facelift of the T3 series.
- The dimensions of the windows fully correspond to the original windows of your Volkswagen T3 Bus (Volkswagen T3 T25 Vanagon).
- No adjustments to the bodywork are necessary, so that the original window can be replaced if necessary.
- Easy and quick to assemble.

The Explore Glazing windows are mounted in the original window rubber.

It is important that the Explore Glazing products are assembled correctly and safely. Careless assembly can lead to accidents and serious damage and / or injury to you or others. If you have no technical experience or are not familiar with the general assembly instructions, we recommend that you have our products assembled by a professional company.
