Add-on: window guard for a sliding window

The window guard on a sliding window for your Land Rover Discovery I 3-door offers a range of benefits and protection for your vehicle. Here are some key points to consider

1. **Protection against break-ins:** The window guard acts as an additional layer of security for your vehicle. It prevents potential intruders from gaining easy access to your vehicle through the sliding window. The robust design and sturdy construction of the window guard provide peace of mind and enhance the security of your vehicle.
2. **Glass protection:** The sliding window is equipped with a window guard that protects the glass from damage. Whether it's bumps, scratches, or other external influences, the window guard helps safeguard the glass and prolong its lifespan.
3. **Safety for pets:** An additional advantage of the window guard is the protection it provides for your pets. With the window guard, pets cannot stick their heads outside while the sliding window is open. This minimizes the risk of injury and ensures a safe environment for your beloved pets during travel.
4. **Preservation of ventilation:** Despite the protection offered by the window guard, you still retain the ability to open the sliding window for ventilation. You can enjoy fresh air and proper airflow in your vehicle while taking the necessary safety measures.

The window guard on a sliding window combines safety, protection, and functionality in an effective manner. It is a valuable addition to your vehicle, providing peace of mind, as well as safety and comfort for your pets. Invest in a window guard for your sliding window and enjoy the benefits it offers during your travels and adventures.

Unique product features:

- Unique design, which exactly follows the contours of the window.
- Mounting on the window profile with the advantages of:
 - the bodywork is not damaged by mounting holes, which means that untreatable rust can form in the cavities of the bodywork;
 - easy to return to its original condition.

For mounting on the Explore Glazing window, use the supplied M5*12 torx security screws, so that it cannot be removed from the outside without the right tools. For optimal burglary prevention, you can secure the window guard on the inside with M5 nuts. For this you need to use M5*16 torx screws (not included).

The window guard is made of a 3 mm aluminum plate and has the same industrial black powder coating as the Explore Glazing window. Colour RAL9005.

The window guard is not pre-assembled by us.

Installation

For mounting on the Explore Glazing window, use the supplied M5*12 torx security screws, so that it cannot be removed from outside without the right tools.

You need a mounting set, which consists of:

- drill 4.2
- drill 5.0
- tap M5
- Torx bit (tamper-resistant)

The mounting set is offered as standard with your quotation request.
