Convient pour	Mercedes-Benz - Mercedes G-Class LWB 5-door Mercedes-Benz - Mercedes G-Class SWB 3-door Mercedes-Benz - Mercedes Kastenwagen

Add-on: window guard for the tail door halfdrop window

The window guard is an option on the Explore Glazing sliding or half-drop window and has been developed entirely on our own aluminum profiles, with the following unique features:

- Unique design, which exactly follows the contours of the window profile.
- Fixation on the window profile with the following advantages:
 - the bodywork is not damaged by mounting holes;
 - easy to return to its original state.

The window guard is made of a 3 mm aluminum plate and provided with the same industrial black powder coating as the Explore Glazing windows (colour RAL9005).

Installation

For mounting on the Explore Glazing window, use the supplied M5*12 torx security screws, so that it cannot be removed from outside without the right tools.

You need a mounting set, which consists of:

- drill 4.2
- drill 5.0
- tap M5
- Torx bit (tamper-resistant)

The mounting set is offered as standard with your quotation request.
