Geschikt voor	Toyota - Toyota Land Cruiser Series 78 Troop Carrier Toyota - Toyota Land Cruiser 70 Series Toyota - Toyota Land Cruiser Series 75 Troop Carrier

## Rechterdeurpaneel achterdeur met neerklapbare Molle system/tafel - swing out type

Introducing the aluminum fold-down table with Molle system for the right-hand side rear door (swing-out type) of your Toyota Troop Carrier. This innovative accessory replaces the existing inner door trim with a robust aluminum panel and a fold-down table, providing a versatile and practical solution for your adventures.

Designed to seamlessly integrate into your Troop Carrier, the aluminum panel matches the size and shape of the original inner door trim. The set includes two hinges and two spring latches, enabling easy unfolding and closing of the table. Nylon cargo straps are also provided, allowing for effortless adjustment and secure attachment of the table.

The Molle panel integrated into the aluminum panel offers optimal space for attaching bags, pouches, or kitchen tools using the renowned PALS webbing system. When folded out, the table provides extra workspace for cooking or other activities, enhancing the functionality of your vehicle. When folded back, the table does not interfere with the smooth operation of the tail door.

Crafted from durable 3 mm thick aluminum, the door panel ensures long-lasting performance, while the fold-down table is constructed from 5 mm thick aluminum. Both components feature a high-quality industrial powder coating, matching our windows and other products, providing resistance against weather-induced discoloration and maintaining a sleek appearance.

Upgrade your Toyota Troop Carrier with the aluminum fold-down table with Molle system and enjoy the added convenience and versatility it brings to your outdoor adventures.

## Inbouw

The aluminium door panel is mounted on the tail door with blind rivet nuts. A rivet gun and rivet nuts are not included.

We offer this product as a convenient do-it-yourself package, specifically designed to replace the door trim of your Toyota Troop Carrier's rear door. The package includes the following components:

- Aluminium door panel (inner trim) and Molle table.
- Hinges made of zinc die-casting, coated in black, with stainless steel parts.
- Spring latches (locks) made of zinc die-casting, coated in black, with stainless steel parts and stainless steel closing brackets.
- Nylon cargo straps.

To install the product, you will need a mounting set, which includes:

- 4.2 mm drill
- 5.0 mm drill
- M5 tap
- Torx bit (tamper-resistant).

Rest assured, the mounting set is provided as a standard inclusion with your quotation request.

For detailed instructions on how to install the product, we recommend downloading our comprehensive installation guide. It will provide you with step-by-step guidance, ensuring a smooth and successful installation process.
